A Hotel PMS integrated with CMND

If the hotel does not already have PMS
integration, you'll find our network of partners at
pms.cmnd.pro

If you are not currently using CMND,
please contact Philips Professional Display
Solutions for advice.

PMS = Property Management System

innovation ✦ you

Installing a new Hotel PMS with Philips Professional Display Solutions

Installing a Hotel PMS can be straightforward
with our network of pre-approved partners.

You'll find a full list of these at pms.cmd.pro

Installation process

>1 Target

Select your target PMS
(Opera, Protel, Clock, etc.)
at pms.cmd.pro

>2 Choose

Choose an integration partner
from the pre-approved selection
and complete the online form.

>3 Follow

Our sales team
will then guide you
through the sales process.

>4 Input

Once you have a **Hotel ID** and **API Key**,
please input these into the same website.

>5 Check

Check your contact details
and update if required.

>6 Integration

Your integration request will be sent
directly to your PMS integration partner,
who will contact you within one working day to arrange
your PMS integration.

*Please note = the integration process varies
depending on the partner.*

Enabling Netflix-embedded on MediaSuite TVs

Whether on a brand new for 2020 model or an existing 5014 or 6014, enabling Netflix onto your MediaSuite TV is easy once your Hotel PMS has been installed.

Upgrade
your existing MediaSuite 5014 and 6014 models.

Enable
your new 5014, 5114, 6014 and 6114 MediaSuite models.

innovation ✨ you

Do you already have MediaSuite TVs?

With the update to **Android P**
you can integrate Netflix onto 5014
and 6014 models.

Upgrading process

>1 Update

Download the new firmware release at philips.com/support and search for your model.

Instructions are included in the download

>2 Log in

Log in to appcontrol.cmnd.pro

>3 Subscribe

Read and digitally sign **Netflix Terms & Conditions.**

>4 Set up

Match the appcontrol settings in the TV under **Apps Profile** settings. You can play this to all TVs on a site using **CMND.**

>5 Upgraded

Netflix will be visible on the TV once all pre-requisites have been met:

- Upgrade firmware to Android P
- Agree Netflix Terms & Conditions
- Integrate Hotel PMS

5014

6014

MediaSuite models

If you have any issues, please raise a ticket with the Philips Professional Display Solutions support team at support.cmnd.pro

Did you just buy new MediaSuite TVs?

With the update to **Android P**
you can integrate Netflix onto 5014, 5114,
